LIABILITIES

Nebr. Hogs Vaccinated

Modified Vaccine. .	1,125,000
Killed Vaccine . . .	42,000
Estimated Cost. . . . \$	1,167,000
Hog Cholera Losses .	<u>\$ 2,300,000</u>
Total Hog Loss. . . . \$	3,467,000

GOALS for...

HOG CHOLERA ERADICATION

1

Complete all phases of the cooperative State-Federal Hog Cholera Eradication Program.

2

Stop use of live vaccine.

3

Cholera outbreaks eliminated for one-year period.

4

Require vaccination to be official, and use only killed vaccine.

5

Prohibit importation of all swine vaccinated with modified live vaccine until 42 days after vaccination.

6

Quarantine all imported swine to premises of imported until shipped to slaughter on permit.

7

Comply with all shipping regulations, within the state and between states.

GOAL-NEBRASKA HOGS

Reintroduction prevented. For
Hog Cholera Free.

1
Nebraska test developed--permits rapid recognition of hog cholera.

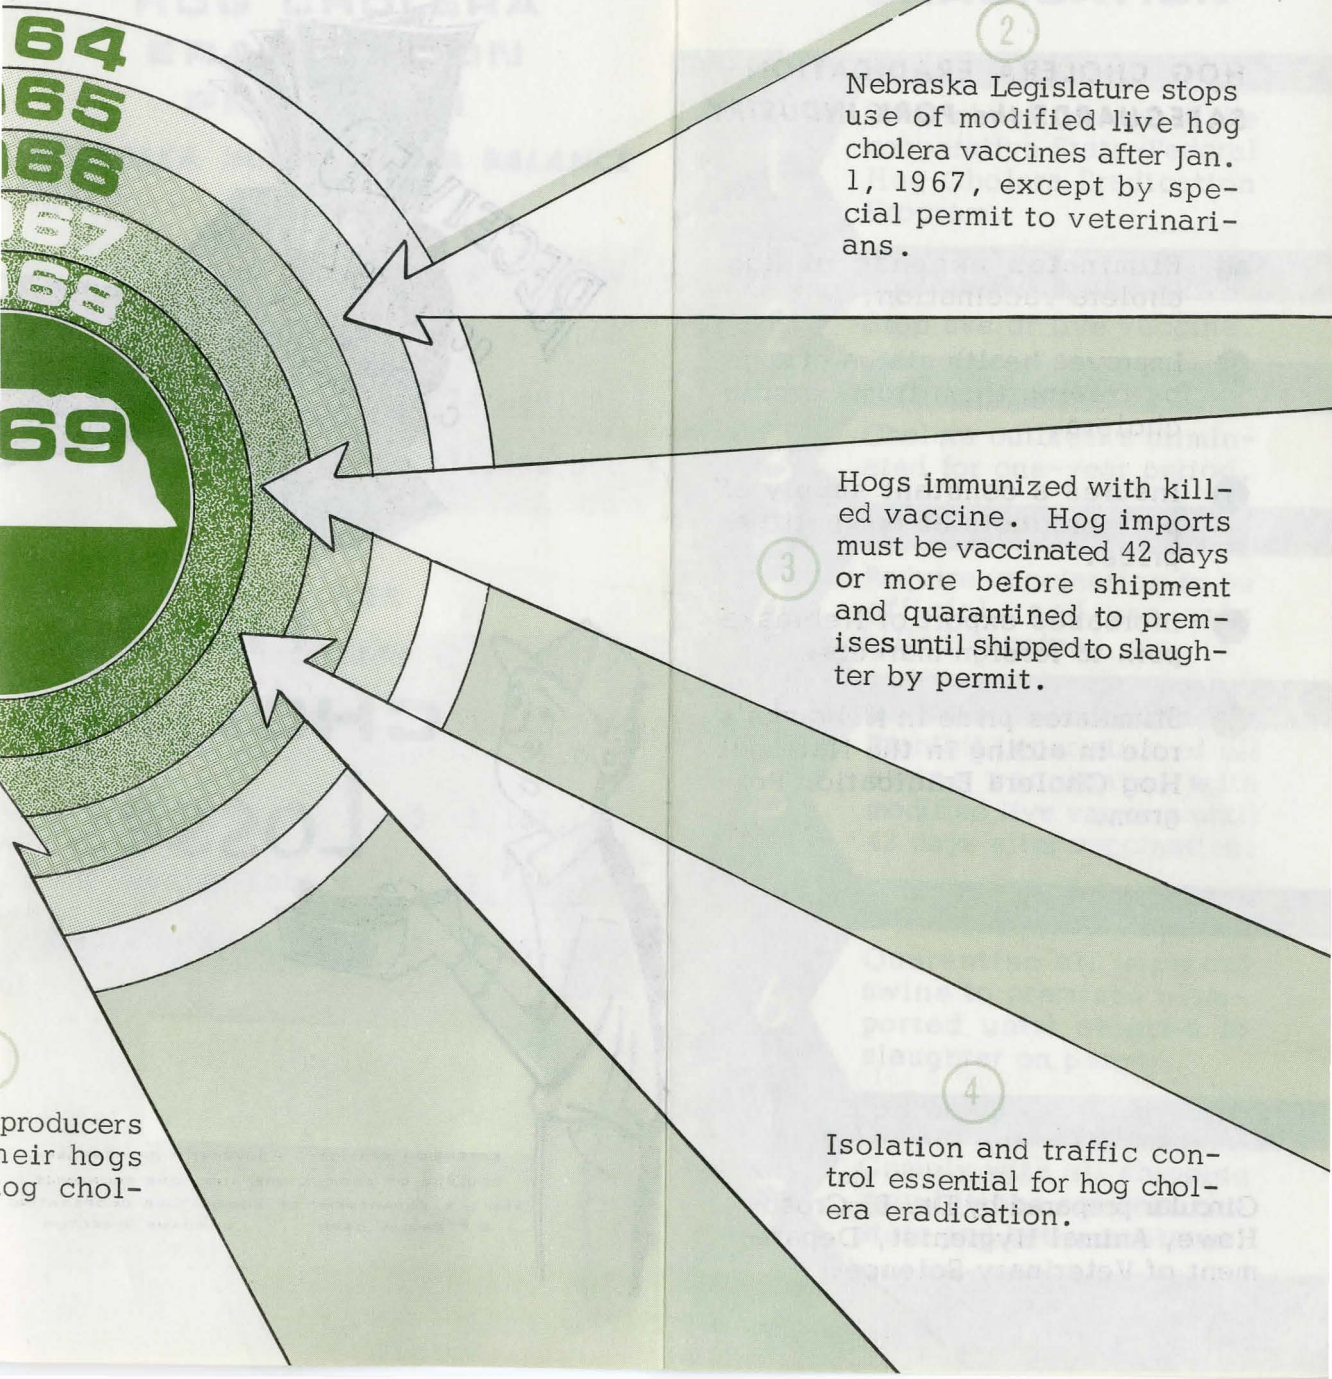

7
Hog Cholera eradicated, vaccination not required.

6
Protect all hogs against hog cholera. Report outbreaks promptly. Investigate and quarantine disease outbreaks. Indemnify if necessary.

SUMMARY

HOG CHOLERA ERADICATION SAFEGUARDS the PORK INDUSTRY

- Eliminates expense of hog cholera vaccination.
- Improves health status of hogs by freeing them from chronic cholera.
- Insures a constant supply of pork products at competitive price.
- Increases export of Nebraska pork to foreign markets.
- Stimulates pride in Nebraska's role in aiding in the National Hog Cholera Eradication Program.

Circular prepared by Dr. E. Crosby Howe, Animal Hygienist, Department of Veterinary Science.
